

DGC International is a global company dedicated to solving today's local, national, and transnational challenges by improving the infrastructure, safety, and services of peoples worldwide. DGC International manages projects in multiple countries, spanning several continents, including the United States, Afghanistan, Pakistan, Iraq, Jordan, UAE, Djibouti, Peru, and Honduras. DGC International is TRACECertified and ISO 9001:2008 certified.

Our business mission is a result of empowering communities and employees to identify and scale up locally appropriate solutions to solve critical problems. Recognizing implementation barriers unique to each setting, our team is comprised of individuals from diverse backgrounds who are dedicated to solving problems and finding solutions to create a better world.
